

ENTIRE HOUSE REMODEL \$250,000 - \$500,000

SILVER *ALL STAR*

This 60 year old ranch is transformed into a modern, spacious floor plan. The garage entry was relocated to the front of the house and a new master suite, laundry and rear entry was added behind. The back wall of the kitchen /family room was extended to provide a more functional space. Soft colors mixed with bold accents and textures blended all of the elements throughout. A two sided fireplace between the family room and living room add pizazz and opened up the space between rooms. Our clients achieved all they desired as they embarked on this new phase of life.
