

# BATH REMODEL \$25,000 - \$50,000

## SILVER

### BUSINESS PARTNERS

Master bath transforms to resort style private spa. A new design and innovative materials transformed this master bath to a true resort style setting. The new birch-wood grey stained cabinetry creates a new design. If there is a fireplace in the room – let it make a statement with stacked brick to the ceiling. Pebble stone flooring and large taupe tiles in the shower and flooring compliment the stacked stone as well as the granite with its combination of white and taupe colors. The trend of the free standing tub added to this wonderful “spa” feeling of the room.
