Crider Carpet
Kenny's Tile & Flooring
Pyramid Pipe & Supply

This particular client wanted to create a Brookside inspired kitchen in their Overland Park home. Along with the inspiration, she desired functionality, an open floor plan and storage maximization. The plan was to remove the island, add a peninsula, relocate the refrigerator and utilize the left wall space for additional cabinetry. As a working mother she required an area in the kitchen for her growing family to have room to utilize counter top space for homework and such while the kitchen was being used by the rest of the family.

2015 REMY REMODEL OF THE YEAR
