- Top Master

When love of sporting events meets love of cooking, this is your ticket! This remodeled kitchen has an expanded, open-floor plan and is a perfect gathering place to entertain family and friends. The new design offers more counter space for cooking, entertaining, and various elements of storage. Most importantly, is the improved traffic flow and additional space for seating around a wall-mounted, big-screen TV. Transitionally designed; the custom-depth, stained maple cabinets are paired with the island's beautiful white granite counter top and slate grey appliances to pull together an alluring "vibe" to the feel of this new space.

# 2015 REMY

REMODEL OF THE YEAR
