

KITCHEN REMODEL \$30,000 - \$60,000

SILVER

BUSINESS PARTNERS

Parents of four active children had our client craving a functional kitchen with current updates. By removing the wall between the kitchen and family room and replacing the raised bar with an island created an open floor concept; which proved additional seating, and work area, storage and a better flow for entertaining. Granite counters are accented by the red pendant lights and stainless appliances. Varied height white cabinets replaced maple cabinets giving a dimensional, lighter appeal. The updates, and new floor plan are both functional and appealing to both the client daily and their many guests while entertaining.
