

KITCHEN REMODEL \$100,000 - \$150,000

It all starts somewhere, right? More space, nicer cabinets, or new appliances? Our client's goal was for a larger island with more room to work, but the original floor plan squeezed the kitchen, limiting the size of the island. By pushing back the adjacent bathroom and laundry room walls, we were able to increase the island by two feet! Problem solved! Our final design provides a complete new kitchen incorporating many lifestyle upgrades, including classically styled cabinets, contrasting finishes, well-balanced efficient LED lighting, purposeful counter spaces for prep, cooking, cleaning, and serving, and convenient storage everywhere!
