### BUSINESS PARTNERS

---

Our client is counting his blessings in the form of a new master bathroom that sports unique nautical influences. The dream bathroom in this turn-of-the-century, brick home overlooking downtown is ready to set sail at the end of a long day! The mood, feel and ambiance of a sailing ship took shape with an artful design blend of old timbers, antique iron and original brick with modern tile, blue glass and quartz. LED shelf lighting, a window view and pieces of the clients' own nautical collection add to the appeal. This head-turning oasis is making waves and is notably "see-worthy!"
