

BEST OF SHOW

BASEMENT REMODEL

The homeowners were dreaming of a space that was not only designed for entertaining, watching movies, and hanging out with friends and family, but a place that was very light and airy. It was crucial to have the space be defined into semi-private areas so everyone in the family could host their own social gatherings, yet not feel confined. This design offers a full movie theater room with hidden surround sound, a full bar with seating for four, banquet seating with storage, a guest bedroom suite, and space for air hockey table now, but a pool table in the future.
