### BUSINESS PARTNERS

It was the beautiful view of wooded, rolling hills, a small creek that ran just beyond the backyard and the close-in location that attracted the new owners. But, the home's finishes throughout exhibited masculine, contemporary elements: Dark espresso cabinetry; dark slate entry floors; bamboo flooring in the LR/DR/Kit; a massive two story multi-color brick fireplace; a Master bath with a river rock shower base, rough hewn tile walls and a floating vanity that lacked storage. The objective was to create a transitional decor with light colors, classic finishes, and a warm atmosphere for entertaining family and friends.
