

KITCHEN REMODEL \$60,001 - \$100,000

GOLD ★ ALL STAR ★

BUSINESS PARTNERS

The layout in this kitchen was disjointed, the lighting was dim and the cabinetry and finishes left much to be desired. The perk to this space was the adjoining back hall, mudroom and powder bath. These areas, while desirable, would need to be re-worked to improve the size and flow of the future kitchen space. The new kitchen features custom cabinetry, a large island, banquette, china cabinet, new powder bath and mudroom with lots of built in storage. A huge change was made to this space, but the original character and charm remain intact with all the modern amenities incorporated!
