

# KITCHEN REMODEL OVER \$150,000

## GOLD

### BUSINESS PARTNERS

This 1906 Colonial Revival home had the traditional small kitchen in the rear of the house. The 1970's remodel hadn't improved its size or function. Our homeowners needed a larger kitchen with space for casual dining. They wanted a smaller, more intimate dining room, so we moved a wall to redefine the spaces. We reworked the breakfast nook to function as a wet bar and pantry with a French door to the deck.

The Shaker-style cabinets and new casing and pocket doors were custom made of quarter-sawn white oak to match the rest of this historical house.
